3. Review of IPRB Meeting Electronic Participation Policy

https://oisc.purdue.edu/pesticide/iprb/iprb_178_virtual_meeting_policy.pdf

ACTION ITEM: NONE

Board discussed the history of the policy and creation in response to COVID. Dave Scott identified how OISC has been working to improve the virtual components of the meetings. Scott also added that new legislation mandates that meetings are available for public participation electronically and that there is a minimum quorum established in statute. The board discussed different levels of participation from board members when they are virtual. Dr. Hellenthal reviewed past meetings and identified changing the policy to no longer allow for board members to participate virtually would likely negatively impact participation and the desire to ensure that all board members voices are heard. No formal motion was presented to the board to change the current policy.

4. Cases involving compliance actions since the last meeting

ACTION ITEM: Revisions to how cases are provided; updates to website.

Board discussed improvements to how cases are provided for the IPRB meetings from OISC. Future documents will include the case summary and a link to the public records for cases would be acceptable instead of including the entire case file in the summary document provided to the board. OISC agreed to work on additional revisions to the OISC website to make the link for public records clearly visible.

5. Petition for review of OISC action in case # PS23-0197

MOTION: approve petition; 1st Bob Andrews; 2nd John Bacone

ACTION ITEM: approved; voice vote; unanimous.

Board commented that the new administrative enforcement procedures for OISC, called for in SEA#216, appeared to be complied with 100%, although this was a 2023 case that would not have required the new process.
