

## Category 8 - Community-Wide Mosquito Management Site Assessment Fact Sheet

This fact sheet can serve as written instructions to a registered technician covering a variety of site-specific precautions to prevent injury to persons or the environment or damage to property. The certified pesticide applicator supervising the registered technician is responsible for determining the need for additional site-specific precautions. This fact sheet must be in the possession of the registered technician at the work site and must be reviewed by the registered technician prior to each pesticide application.

- I have a label and Material Safety Data Sheet (MSDS) for each pesticide product to be used at the job site.
- I will be wearing the personal protective equipment (safety gear) required by the label.
- My certified supervisor's name is \_\_\_\_\_, and I am able to contact him/her by \_\_\_\_\_.
- I have my registered technician credential with me.
- I am at the correct application site/location/address.
- I have the proper pesticide(s) for the types of areas to be treated.
- My application equipment is calibrated and in proper working order.
- I have checked the application site for any of the following:
  - People with known sensitivities or health concerns who are located in the area to be treated.
  - Requested "no spray" areas.
  - Lakes, ponds, streams or rivers.
  - Schools (see "[Pest Control in Schools Policy](#)").
  - Child Care Facilities (see "[Child Care Facility Pest Control](#)")
  - Outdoor gatherings of people who may be impacted by my application.
