School Grounds & Athletic Field Pest Management at Schools Site Assessment Fact Sheet

This fact sheet can serve as written instructions to a registered technician covering a variety of site-specific precautions to prevent injury to persons or the environment or damage to property. The certified pesticide applicator supervising the registered technician is responsible for determining the need for additional site-specific precautions. This fact sheet must be in the possession of the registered technician at the work site and must be reviewed by the registered technician prior to each pesticide application.

- I have a label for each pesticide product to be used at the job site.
- I will be wearing the personal protective equipment (safety gear) required by the label.
- My certified supervisor's name is _____, and I am able to contact him/her by _____.
- I am at the correct application site/location at the school.
- I have the proper pesticide(s) loaded for the areas to be treated.
- My supervisor and school officials have been advised of any re-entry restrictions required by the label or the need to keep students out of the area for at least four (4) hours.
- I have checked for any of the following which could be adversely affected by my application:
 - Exposed food, dishes or uncovered food preparation surfaces
 - Air intake vents for ventilation systems in operation
 - Sensitive plants or vegetable gardens
 - Lakes, ponds or swimming pools
 - Pets or pet dishes
 - Bird feeders or bird baths
 - Toys or playground equipment
- I am **NOT** applying this pesticide during normal school instructional hours.
- My supervisor and I have previously examined this site together and discussed any special precautions.
