Who needs a feed license?

Outlined in the feed law: Section IC-15-19-7-24.

A person who “**manufactures**” a commercial feed or whose “**name**” appears on the label of a commercial feed must obtain an Indiana Commercial feed license **prior** to distribution of those commercial feeds. *(Custom formula feed, defined ingredients, and pet treats are all defined as commercial feeds.)*

Who needs a feed license?

Outlined in the feed law: Section IC-15-19-7-24 (b).

An out-of-state distributor may not cause a commercial feed to be distributed in Indiana without a commercial feeds license.

Even though they may not be the manufacturer or their name appear anywhere on the label. They are required to be licensed and file quarterly tonnage reports.

MANUFACTURERS

Defined in IC 15-19-7-10.

Manufacture means to: *grind, mix, blend, or further process a commercial feed.*

If “**toll**” manufacturing for another person, still must be licensed. Even if the toll manufacturer’s name does not appear on the label.

MANUFACTURES

Defined in IC 15-19-7-3.

A person who produces Custom Formula feeds must be licensed. A Custom Formula feed is a commercial feed.

However, quarterly tonnage reporting is not required.
