**INDIANA SEED CONTROL 2013 ANNUAL REPORT**

Allow me to present this 2013 annual report of the Office of Indiana State Chemist and Seed Commissioner. It represents a summary of official inspectional activities relating to seed control in Indiana, as well as laboratory analyses performed on official samples collected under the authority of the Indiana Seed Law for agricultural and vegetable seeds distributed in Indiana. It also summarizes the testing activity on samples submitted to the laboratory for testing.

The activities of our seed regulatory program revolve around our mission statement: "Provide education and service to consumers of seed and the seed industry and assure a quality product is available in the marketplace and truthfully represented."

The Indiana Seed Law is a "truth-in-labeling" law requiring basic quality factors to be expressed to represent a level of quality to potential purchasers and consumers. The purpose of the law is to provide the consumer with adequate information, through fair and consistent labeling, to make intelligent purchase of agricultural and vegetable seed products.

The inspection staff of the Indiana State Chemist and Seed Commissioner provides market place surveillance throughout the state through inspectional visits to all retail sales outlets offering seed products for sale. These products routinely consist of various agricultural crop seeds, forage seeds, lawn and turf seeds, and vegetable crop kinds. Samples are obtained through official sampling methods and are analyzed in the state seed laboratory to determine compliance with labeled guarantees.

Our office is a charter member of the Association of American Seed Control Officials (AASCO) and the Association of Official Seed Analysts (AOSA) and we abide by the rules and protocols established by those associations. This report accurately reflects the dedication to our statutory responsibilities to enforce the Indiana Seed Law and provide consumer protection to Indiana farmers and seedsmen.

Prepared and Submitted By:

A handwritten signature in black ink, appearing to read "Larry W. Nees". The signature is fluid and cursive.

Larry W. Nees  
Seed Administrator

Office of  
**Indiana State Chemist & Seed Commissioner**

## OUR PRESENCE IN INDIANA ...

The Indiana Seed Commissioner was established in 1921 with the passage of House Bill No. 99 which was signed into law on February 24, 1921 to create the Indiana Seed Law, a “truth-in-labeling” law.

*State Seed Laboratory, 1921*

Seed testing facilities were established at Purdue University following passage of that first law to provide support to enforcement activities conducted under the authority of the law. Testing services were also provided for residents and consumers of the state to assess seed quality on seed purchased and grown by farmers.

*State Seed Laboratory, Today*

The Office of Indiana State Chemist and Seed Commissioner (OISC) is located on the campus of Purdue University and housed in the Biochemistry Building in the College of Agriculture. This proximity to faculty, researchers and extension staff in the various agricultural sciences is beneficial in providing information on new technologies constantly emerging in the regulated industries OISC comes in contact with.

*Biochemistry Building  
175 S. University Street, Purdue University  
West Lafayette, IN 47907*

# THE INDIANA SEED INDUSTRY

## Indiana Seed Permit\* holders number 292

(Both in-state and out-of-state distributors)

(\* distributors marketing seed under their private label)

### SEED DISTRIBUTION IN INDIANA

Table 1 below illustrates a breakdown of reported pounds of agricultural and vegetable seeds distributed in Indiana on which inspection fees were paid during the calendar years of 2012 and 2013. These figures and categories reported represent those specified on the quarterly reports submitted from all permit holders licensed to do business in Indiana, as required by the Indiana Seed Law.

The law requires all distributors who cause seed to be distributed in the state to report total sales made. Inspection fees are assessed based on the kind and amount of seed sold. Current fees assessed on total distribution are 30 cents/100 pounds sold for alfalfas, clovers, grasses and vegetables, and 15 cents/100 pounds sold for all other seeds.

Table 1. Kind of Seed	2012 Distribution	2013 Distribution
Alfalfas	1,385,900 lbs	2,796,000 lbs
Clovers	954,400 lbs	946,100 lbs
Vegetables	737,500 lbs	693,000 lbs
Grasses	10,353,400 lbs	8,859,100 lbs
Corn	111,039,000 lbs	117,270,700 lbs
Soybeans	291,915,700 lbs	329,752,700 lbs
Wheat	48,204,100 lbs	40,468,300 lbs
Oats	3,893,300 lbs	3,459,800 lbs
Miscellaneous	18,781,100 lbs	19,820,900 lbs

# PROFESSIONAL AFFILIATIONS ...

The Office of the Indiana Seed Commissioner maintains membership in national seed organizations and associations and agreements with federal agencies.

**AASCO (Association of American Seed Control Officials)** The Seed Commissioner's office participates as an active member of AASCO. The Association of American Seed Control Officials is an organization of seed regulatory officials from the United States and Canada. The Association was organized in 1949, from an outgrowth of regional meetings held in various parts of the United States. The members meet annually to discuss mutual concerns of seed law enforcement, to be updated on new developments in the seed industry, and to update the Recommended Uniform State Seed Law (RUSSL) which the organization developed and maintains as a "model" law for states and federal programs.

**AOSA (Association of Official Seed Analysts, Inc.)** The State Seed Laboratory is a member of the Association of Official Seed Analysts, Inc., (AOSA) a national body responsible for development of uniform testing rules utilized in the U.S. and Canada and recognized internationally. AOSA was formed in 1908 in response to initial attempts by individual states to develop seed laws. This was the beginning of regulated seed commerce in the United States. Initial priorities included, as was defined in the constitution, an attempt to seek uniformity and accuracy in methods, results, and reports. It set as its objective an effort to perfect and make publicly known, through publication, uniform rules for seed testing. Primary functions include:

- Establish the AOSA Rules for Testing Seeds which are generally adopted by most states as the rules for testing seeds in their respective states
- Contribute to the refinement and modification of the rules and procedures for seed testing
- Ensure that testing procedures are standardized between analysts and between laboratories
- Influence and assist in enforcement of appropriate seed legislation at state and federal levels

**USDA Seed Regulatory & Testing Branch** - The Indiana Seed Commissioner's Office maintains Cooperative Agreement #12-25-A-3330 with the USDA Seed Regulatory and Testing Branch for mutual assistance and cooperation in regulatory matters pertaining to seed shipped into the state from out-of-state vendors. The federal agency authorizes the State Seed Commissioner to sample seed and inspect records pertaining to seed shipments made into Indiana subject to the Federal Seed Act. The Federal Seed Act, by virtue of its basic similarity to the Indiana Seed Law, supplements the State Law.

# ANALYSIS & TESTING ACTIVITIES

The Indiana State Seed Laboratory is an active member of the Association of Official Seed Analysts (AOSA) and the methods used for sample preparation and analysis are those approved by the Association. Under such “Rules for Testing

Seeds” a standard analysis has been developed in conjunction with the enforcement of labeling laws that furnishes information as to the composition of the seed sample and the ability of the seed to produce plants. The rules, which are routinely followed, summarize and make available the accumulated experience of seed analysts.

The laboratory also offers a service testing program available to the general public. Individuals and/or companies requesting analysis information may submit samples to the laboratory for testing and specify the type of test or tests desired (purity, germination, noxious weed seed exam). Testing fees are \$6 per sample for individual purity, germination and/or identification tests, and \$10 per sample for complete tests (purity, germination, noxious weed exam). Detailed reports of analysis are furnished to the sender at the completion of the testing.

## 2013 SAMPLE COLLECTION AND ANALYSIS

	<u>Total</u>	<u>Passed</u>	<u>% Passed</u>
Total Official Samples* Tested:	2,110	2,014	95.4%
Total Service Samples** Tested:	1,966		
Total Feed Samples (microscopy):	(70) – included in total service samples tested		
Total Samples Tested in 2013:	4,076		

\* Samples obtained by state inspectors for regulatory enforcement program

\*\* Samples submitted by farmers/consumers for testing

### SEED COUNT MONITORING AND TESTING

Emphasis was again placed on “seed count” labeling claims for corn, soybeans and wheat seed marketed in Indiana during the 2013 season. Seed count tests were performed on random samples collected during the course of routine sampling throughout the state. The testing protocol used was developed and adopted by the Association of Official Seed Analysts as a part of their “Rules for Testing Seeds”. Specific tolerances included in that official protocol were used to determine if statistical differences occurred between label claims and test results. Current tolerances for seed count testing are 2% for corn, 3% for wheat, and 4% for soybeans. The following is a summary of test results during the 2013 season:

Pure Seed 99.00 Pct.  
Inert .95 Pct.  
Crop Seed .05 Pct.  
Weed Seed .00 Pct.  
Noxious Weed Seeds-NONE  
Germination 90.00 Pct.  
Tested 1/03  
Origin IN  
Net Wt. 50 lbs. (22.68 kg.)  
Approx. 2992 seeds per lb.  
Approx. 149600 seeds per bag

	<u>Crop: CORN</u>	<u>Crop: SOYBEANS</u>	<u>Crop: WHEAT</u>
# Companies Sampled:	34	38	36
# Samples Tested:	61	73	61
# Samples Out of Tolerance	4 (6.5%)	3 (4.1%)	3 (4.9%)

## INSPECTION & ENFORCEMENT

Seed Inspectional Visits Made in 2013	602

# ENFORCEMENT OF FEDERAL LAW

## OISC/USDA Cooperative Agreement

News Releases Summarizing USDA Federal Seed Act Cases in 2013 Settled With the Assistance of the Indiana Seed Control Program Seed Regulatory and Testing Services

### Seed Regulatory and Testing Services

The Seed Regulatory and Testing Division enforces interstate commerce provisions of the Federal Seed Act and provides seed testing service under the Agricultural Marketing Act.

#### Federal Seed Act

---

- The Federal Seed Act regulates the interstate shipment of agricultural and vegetable seeds.
- The FSA requires that seed shipped in interstate commerce be labeled with information that allows seed buyers to make informed choices.
- Seed labeling information and advertisements pertaining to the seed must be truthful.
- The FSA helps promote uniformity among State laws and fair competition within the seed trade.

#### Complaints Under the Federal Seed Act

Complaints involving mislabeled seed are submitted to the Branch for investigation. Most complaints are submitted by State seed control officials through existing cooperative agreements. They may be submitted by anyone. Regulatory action is taken against the interstate shipper, when the violation is confirmed. State inspectors routinely inspect and sample seed shipments being marketed in their States.

Information on interstate shipments found to be mislabeled may be submitted to the Seed Regulatory

Information on interstate shipments found to be mislabeled may be submitted to the Seed Regulatory and Testing Division for action, such as:

- Letter of warning for minor violations and technical violations
- Monetary penalty for serious violations

### USDA FEDERAL SEED ACT ENFORCEMENT

OISC submitted samples and supportive documentation collected on 31 cases of apparent violations of the Federal Seed Act to the USDA Seed Regulatory & Testing Division during 2013. These cases represented shipments of seed made into Indiana by 17 different out-of-state shippers. Final settlement was achieved during 2013 on one seed lot with settlement fines totaling \$1,050 involving one interstate shipper.

In reply refer to:  
FSA 13-0014 et al.

The Honorable Robert D. Waltz  
Office of Indiana State Chemist and Seed Commissioner  
Purdue University  
175 South University Street  
West Lafayette, Indiana 47907-2063

Dear Commissioner Waltz:

A Federal Seed Act (FSA) case against Mountain View Seeds, Ltd. has been settled. Enclosed is the Program Announcement about the \$1,050 settlement.

Closing this case represents another successful FSA action resulting from official seed inspections accomplished by Mr. Larry Nees and members of his staff. We commend them for the professional manner and expert investigative techniques used in detecting the apparent violations. Successful accomplishment of the FSA's primary objective, to enforce compliance and foster fair competition within the seed trade, depends on the cooperative participation of State seed officials.

We trust that this action is effective in supporting your seed inspection program for the benefit of Indiana seed customers and farmers.

Sincerely,

A handwritten signature in blue ink, appearing to read "F. Shah", followed by a horizontal line.

Dr. Fawad S. Shah  
Director

## INDIANA SEED REGULATORY PROGRAM STAFF

The success and effectiveness of our program is due to the dedication and support of our staff involved in laboratory testing and field inspection. The following individuals provide that support. Our laboratory program staff in chronological order of hire:

### Minoo Faghihi, Seed Analyst

*Minoo was hired in February of 2005 as an analyst to specialize in seed purity testing in the laboratory and provides valuable assistance in leading our seed purity testing in the laboratory. She obtained her accreditation from AOSA as a Certified Seed Analyst in germination testing in April of 2012 and her purity accreditation in February of 2013. In her present role as senior purity analyst, she focuses on seed purity testing, seed count testing and germination testing activities in the State Seed Laboratory.*

### Jodi Small, Seed Analyst

*Jodi was hired in March of 2005 as an analyst to specialize in germination testing for the laboratory. In her present role as senior germination analyst, her main focus is in viability testing of all species coming into the laboratory, conducting warm germination tests on both agricultural and vegetable crop kinds. Jodi obtained her accreditation from AOSA as a Certified Seed Analyst in germination testing in April of 2012. She is also involved in bioassay testing for varietal traits and tetrazolium testing.*

### Teresa Thompson, Laboratory Technician VII

*Teresa began her Purdue career in 2004 working in the Department of Horticulture as a lab technician. She was hired by the Seed Laboratory in January 2012 as a secretary to the Seed Laboratory and Seed Administrator. In her role, she is responsible for data entry of all sample information that is submitted and for printing analysis reports of samples tested in the laboratory. She is responsible for sample entry of service samples received and assists visitors dropping off samples for testing. She also assists with testing and supervising student workers.*

### Ben Alkire – Laboratory Technician VI

*Ben was hired in January of 2012 in the laboratory to specialize in seed purity testing. He holds BS and MS degrees in Horticulture. He has most recently worked as University Development Coordinator at Kabul University, Afghanistan, following work as Specialty Crops Research Associate at Purdue's Department of Horticulture and Landscape Architecture. He has an extensive knowledge of taxonomy and economic crops, horticultural and agronomic. He has received the Presidential Volunteer Service Award for his international volunteer service.*

### Jessica Gray – Laboratory Technician VI

*Jessica was hired in August of 2012 in the laboratory as a Seed Analyst/Feed Microscopist. She holds a BS in Interdisciplinary Biology with a minor in Forensic Science. Her role in the laboratory is to assist in both purity and germination testing and provide microscopic analysis on animal feed and bird feed products.*

## FIELD STAFF

Our inspectors serve as the field representative for our agency. As such, an inspector is charged with effectively communicating and enforcing laws, rules, and policies of the agency, inspecting facilities, reviewing records, collecting samples, collecting and documenting evidence, issuing regulatory orders, and completing necessary reports for the administrative and laboratory programs.

### Brett Groves, Chief Inspector

#### Trish Waller Dunn – Inspector, Southeast Sector

Trish started with OISC December of 2006 as an analytical chemist with the feed/fertilizer group. She accepted her current role as inspector in November of 2010. She has a B.S. in Animal Sciences from Purdue University. Trish covers the southeast region of Indiana from Indianapolis to the Ohio River.

#### Vince Glose – Urban & Agricultural Products Inspector

Vince Glose is our small package inspector and covers the entire state. He visits mainly retail stores, takes small package samples of feed, seed and fertilizer products, check the labels, checks for registration and sends the samples to the lab for analysis. Vince graduated with a B.S. in Agriculture Economics with Distinction from Purdue University in 1969.

#### Ken Neuhoﬀ – Inspector, Northwest Sector

Ken came to us from Pulaski Farm Bureau Co-op where he was a branch manager. Ken has a B. S. in Agriculture from Purdue. The area that Ken covers is the Northwest portion of the state.

#### Tom Smith – Inspector, West Central Sector

Tom started with this office in the summer of 1999. Tom received a B. S. in Agriculture Education at Purdue University and is a Certified Crop Advisor. Tom's area is the West Central part of the state.

#### Julie Stephens – Inspector, Southwest Sector

Julie covers the Southwest part of Indiana from Terre Haute to Evansville. Julie joined our staff in 1994. She has a B.S. degree in Animal Sciences from the University of Illinois. Before joining our staff, she was engaged in livestock and grain production on the family farm.

#### Charles Thomas – Inspector, Northeast Sector

Charles started out at Purdue in 1987 as a laboratory technician for the Animal Science Department. He joined OISC in 2000 as a chemist for the Pesticide Formulation Section and accepted his current role as inspector on July 1, 2005. He is a Purdue graduate with a M.S. in Animal Science. Charles covers the Northeast section of Indiana.

#### Bob Wakeman – Inspector, East Central Sector

Our inspector for the East-Central region of Indiana is Bob Wakeman. Bob started with the Office in January 2003. He is a Purdue graduate with a B.S. in Agriculture, Farm Business and Management.
